

Flying Junior Italian Open Championship 2018
20th - 25th August - Porto San Giorgio

Hi everyone!

The next Flying Junior Italian open championship is just around the corner.

This year before the competition it is possible to participate to some training days. Boat training and classes about different themes (such as technical, regulation, ecc.) are planned for the three days before the competition.

This could be a good way, especially for the youngest teams, to improve their sailing.

The sailing week attracted much more teams than usual championship, with more than thirty teams this is going to be one of the most attended national regatta of the last twenty years.

It would be amazing to have with us some teams from abroad.

All of you are invited to participate to our sailing week and our open championship.

(there is not entry fee for teams who come from abroad)
